Professional Experience

Axis Group - Brooklyn, NY (Remote)

AI Value Designer June 2023 - Present

UX Designer June 2022 - June 2023

- Co-developed a Business Value Discovery framework to systematically map business problems to analytics solutions and the underlying data asset; enabling teams to identify and prioritize high value, high feasibility opportunities.
- Lead stakeholder workshops and conduct user interviews to understand business needs and operational challenges, guiding use case prioritization across diverse client engagements.
- Design and deliver strategic analytics solutions across industries (real estate, healthcare, manufacturing, banking), translating complex business problems into actionable, data driven solutions and dashboards.
- Present scenario driven solution design walkthroughs to stakeholders using interactive prototypes to align and accelerate project deliverables.

Connecticut Online Computer Center (COCC) - Southington, CT - *Configuration*

Analyst Intern Summer 2021

- Maintained and updated live iBanking, websites, and mobile sites for over 100 banks and credit unions.
- Serviced a customer base of 1.8 million users through direct manipulation of iBanking sites via XML.
- Utilized SQL queries across Oracle relational databases to analyze and identify the cause of problems faced by iBanking users.
